

We are happy to announce that we will now be offering a Guatemala Adoption Program facilitated by AMREX.

Our Guatemala program is a 1-trip program of only 3 to 5 days. Once a family has received their INS approval, they will be eligible to begin receiving referrals.

Once a child has been selected, the adoption is completed by power of attorney prior to the family traveling. The family will receive their child shortly after arrival and he/she will be with them the rest of the trip.

Children Available:

- Age range is normally 3 months to 5 years
- Typically have light to medium brown skin, brown eyes, and brown or black hair
- More than one child can be adopted at the same time
- All children receive regular well-baby check-ups and are tested for HIV, Hepatitis B, and venereal diseases
- Pictures and medical reports are available

Parents' Eligibility:

- At least one adoptive parent must be a United States citizen
- Married couples - prior divorce is acceptable
- Single women 25 or older
- Prospective parents may be childless or have biological/adoptive children living at the home
- Age limit for prospective parents are flexible, typically 24 - 55 years of age
- Able to meet financial and health requirements

Highlights:

- Only one parent is required to travel for duration of 3 to 5 days
- Very young referrals
- Inexpensive in-country travel and accommodation
