

## Family #599 ([Their Web Site](#))

This family is from California. He is a single man who wanted to build his family through adoption. He was using a agency who I was friendly with and when he ran into some snags in Ukraine he contacted me to see if I could help him. It turned out that he was using translators that I personally knew, and together we were able to get his adoption completed. He was sent to the Kherson region were he instantly fell in love with this cute five year old boy and this handsome little seven year old boy. Now he is thinking of returning to Ukraine for another child.
