

Family #749 ([Their Web Site](#))

This family is from California. He is a single man who is also featured on this site as [Family # 599](#). After having such a wonderful positive experience with his first adoption, he wanted to return to Ukraine for another child. This time he wanted to adopt a little boy between 4 and 14 years old. I am so thrilled to announce that on January 31, 2004 he left for Ukraine. He was sent to the Kherson region where he fell madly in love with this handsome six year old little boy. It turns out that the first two children that he adopted knew this boy and they were close friends.
