Family #250

This family is from Michigan. I met them on September 15, 2000. At that time, I was leaving for Ukraine on September 19, 2000 and asked them to please contact me in October. They had begun their paperwork and when I returned home we finished the documents and they were ready to go. This family was such a pleasure to help because the trust they had in my help was unlimited. Everything that I told them they followed to a 'T'. One of their emails to me they said 'You truly are an angel in our eyes!' This was very touching since I had just won the Angel Adoption award from the US government. I am very happy to say that on March 9, 2001 they left for Ukraine. They were sent to the Luhans'k region (Lutakova orphanage). Their first day there the Mrs. Called me very upset. She was scared and needed someone to talk too. I told her not to be scared and that everything would work out. The following day they were shown this adorable little 1 year old boy, and this adorable little 2 year old boy who now call them mom & dad. Congrats dear

friend.

Family #251

This family is from Maine. They originally emailed me on October 7, 2000 while I was in Ukraine. She wrote: 'I've read and re-read and re-read your website. I've taken comfort from it and I get excited with each new reading - all the while waiting for your return.' She has married her college sweetheart over 10 years ago and wanted to build to their family through adoption. She said 'We were on the verge of taking injectable fertility drugs - but I chickened out.' (Grinning) I am so happy to announce that on March 11, 2001 they left for Ukraine. They were sent to the Donets'k region where they adopted this adorable little 21 month old baby boy and this amazing little 6 month old girl. Now they are a 'instant' family.

Family #252(Their Web Site)

This family is from New Hampshire. I met her on November 30, 2000. She is a single women who wanted to become a mother through adoption. She was such a pleasure to help and I will never forget her because she would always panic every time she heard something negative in the 'adoption world.' One evening she called me in tears. She was so frightened about the 'what if's that she would face' when she went to Ukraine; however, within minutes I was able to calm her down. I am SO happy to announce that on March 18, 2001 she left for Ukraine. She was sent to the Odesa region where she adopted this

stunning little six month old baby boy. She was only in a Ukraine for a couple of weeks and the whole time she would email me with the updates on how 'Happy' she is with her son. He is amazing, and has found a amazing mother.

Family #253

This family is from Massachusetts. I do not remember when and how I met her. She is a single women who wanted to adopt a 'older' child from Ukraine. She was over-all easy to help as she just took the information and followed it. I am so happy to announce that on March 20, 2001 she left for Ukraine. She stayed in the Kyiv area were she adopted this beautiful 11 year old girl. After court she decided that she wanted to adopt another child. So she stayed and adopted not only ONE more child, but THREE more children. These handsome little boys who were 11 years old, 10 years old, and 8 years old. I guess she just fell in love with them all. I can understand that first hand since I originally only wanted ONE child too, and ended up adopting five! (Congrats friend)

Family #254([Their Web Site](#))

This family is from California and is also featured on this site as [Family #37](#). She wanted to return to Ukraine to adopt another child for her adopted Ukrainian son to have a sibling. Since she was familiar with the paperwork from her first adoption, she was extra easy to help. (She did all the work) I am so

happy to announce that on March 25, 2001 they left for Ukraine. They brought their Ukrainian son with them. They were sent to the Chernivtsi region where they adopted this adorable 9 month old boy.. (I bet they return for #3 one day)

Family #255([Their Web Site](#))

This family is from Virginia. They originally e-mailed me on October 27, 2000. They have been married over 7 years and wanted to build their family through adoption. She said: "We could provide a safe loving family for any child and ache to do so." I am so happy to announce that on March 25, 2001 they left for Ukraine. They were sent to the Rovno region (between L'viv and Kyiv) where they found this precious little 5 month old girl waiting for them.

Family #256

This family is from Indiana. I met them on September 27, 2000. They were a childless couple who have been married over 4 years who could have biological children but decided that they wanted to adopt. She said 'I just know that there are already so many children in the world in need of a good mom and dad to give them all of the attention and love that they are lacking in the orphanages.' As you can imagine this was very touching to me, since I am eager to help as many orphaned children to find happy homes. I am pleased to announce that on March 29, 2001 they left for Ukraine. They were sent to the Zaporizhzhya region where they found this handsome little

16 month old boy waiting for them.

Family #257

This family is from New Jersey. I met them on November 3, 2000. This was one of my all time favorite families to help. The Mrs. And I would spend many of evenings on chat, talking about her adoption and her wishes and plans. I am so happy to announce that on March 29, 2001 they left for Ukraine. They were sent to a orphanage in Kyiv were they were shown a 16 month old boy. Mr. automatically fell in love with this child, but Mrs. Wanted to keep looking for 'her' child. They were sent to a second region where again Mr. fell in love with a 5 year old girl, and a 4 year old boy. Mrs. Still knew in her heart these were not her children. (Grinning).. So Mrs. Called me. She was very upset and felt that she HAD to make a decision soon and was scared to return to the adoption center to see more children. I talked to her and told her that she needed to follow her heart, to return to see what else they had available. They were then sent to the Chernivtsi region where she immediately fell in love with this adorable bouncing baby boy who is 4 months old and this beautiful little 26 month old girl.. So this goes to show, Mrs. new all along that she would find HER children with love and patience. (Congrats dear friend)

Family #258([Their Web Site](#))

This family is from Indiana. I met them on November 30,

2000. They have FOUR biological kids and wanted to build to their family and add two more children from Ukraine. Overall, they were very easy to help, as they just took the information and were able to follow the directions. I am so happy to say that on April 8, 2001 they left for Ukraine. They were sent to the Kherson region where they found this adorable 6 year old boy and this sweet 7 year old girl.

Family #259

This family is from Florida. I met them shortly after I got home from adopting my last two children. (Jan 27, 2001) She said: 'While we were in Wisconsin over Christmas, the Ukrainian adoption article ran and my mother-in-law saved it. As soon as we got back, I got in touch with ([Family #73](#)) through the Orlando Sentinel and here we are...'. The Florida email group of families who have already adopted this way was able to walk them through the paperwork. So not much was left to do when I got home. They were a childless couple wanting to adopt a boy under 12 mths. I am so happy to say that on April 15, 2001 they left for Ukraine. They were sent to the Lutsk region where 'guess what?' they found this handsome 12 month old boy. (Smiling)
